INTRODUCTION

Quality, Innovation, Excellence.

Bushtec Safari - a brand synonymous with outstanding quality, sheer luxury, innovative design and unsurpassed expertise - is a division of the Canvas and Tent Group, who have been manufacturing tents since 1968.

We are proud to offer you 50 years of knowledge which sets us apart from our competitors and has established us as the leading tent manufacturer and supplier to the military, humanitarian organizations, game reserves, safari destinations, holiday resorts and adventurers, both locally and internationally.

Situated in the foothills of the Drakensberg Mountains in Ladysmith, South Africa, our state-of-the-art factory is dedicated and committed to setting new standards in manufacturing.

Worldwide, our products are designed to impress and built to last. These standards enable us to offer peace-of-mind through our global distribution network.

“World renowned, trusted & respected.”

ENDLESS OPPORTUNITIES

FOREST VILLA

DESERT SPA

BEACHFRONT BAR

BUSH LODGE CONFERENCE

[X]

forest villa

Nestled into the dense woodland landscape of Belgium, our Shaka tent becomes the perfect accommodation suite. Allowing one to authentically connect with nature while supporting conservation efforts in the area.

With the use of our low impact tent structures; electrical; water purification and sewerage systems, we provide not only the perfect integrated solutions for your eco travel destination, but also a cozy and luxurious experience for your guests.

No matter your conversational obligations, ensure your unique vision comes to life using our environmentally friendly luxury range tents.

BUSHTEC
SAFARI

DESIGNED TO IMPRESS. BUILT TO LAST.

desert spa

Featured above is our Shaka tent, designed as a luxury resort spa. Our tents are highly customizable to meet your every requirement. With the integration of our insulated canvas, shade-net flysheet, timber door, double-glazed glass windows and a/c system we are able to provide a comfortable and thermally efficient tented solution to suite the hot, arid climate of the Moroccan dunes.

No matter the application, ensure your unique vision comes to life using our customizable luxury tents.

[X]

7

beachfront bar

Placed on a tropical beachfront in Bali, our Shaka tent becomes the perfect solution for a resort beach bar. Our standard roll-up canvas windows and doors seamlessly continue the beach atmosphere into the bar.

Our tent structure is designed with a dual purpose, to facilitate a fresh breeze to cool down the tent providing a comfortable experience within and to withstand rigorous wind loads for those tropical storms. In addition our canvas is water-resistant, rot-proof, uv-resistant and colour-fast, designed to withstand the natural elements.

No matter the environment, ensure your unique vision comes to life using our durable luxury tents.

[X]

bush lodge conference

Located in the bushveld of Botswana, our Shaka tent demonstrates the ease at which one can create a sophisticated space for corporate getaway meetings at your bush lodge. Our standard luxury range tents are expertly designed, have a short lead time, are quick and easy to install and are suitable for many purposes. Thus ensuring a convenience that is difficult to surpass. No matter your requirements, ensure your unique vision comes to life using our convenient luxury tents.

TENT STRUCTURE

07

TENT STRUCTURE

1. ROOF

[X]

Our structures have up to four layers to optimize durability, ventilation and temperature.

1. Shade net flysheet
2. PVC flysheet
3. Canvas roof
4. Ceiling

07

TENT STRUCTURE

2. BODY POLES & WEBBING STRAPS [X]

The canvas tent body is suspended from the steel frame using body poles and webbing straps.

07

TENT STRUCTURE

3. MUDFLANCE

[X]

A PVC mudflance fixes the canvas wall to the floor to seal and protect the tent from water and dust.

07

TENT STRUCTURE

4. WINDOWS

[X]

When it comes to windows we make use of small, large or high windows with shade netting to enable ventilation and deter bugs. Outer canvas flaps are used to close windows during rainstorms.

07

TENT STRUCTURE

5. DOORS

[X]

High quality Velcro and YKK zipper combinations ensure durability and easy maintenance on our canvas doors. Innovative solutions allow for the perfect fitments of hard doors.

07

TENT STRUCTURE

6. CANVAS BODY

[X]

At Bushtec Safari we make use of the highest quality 550 gsm ripstop canvas for the full tent body to ensure the durability of our tents. In addition, our canvas also undergoes a colour-fastening treatment to minimize colour fading over time.

07

TENT STRUCTURE

7. DURABILITY

[X]

All our tents are UV-resistant, rot-proof, water resistant and an optional extra can be made fire-retardant. Each tent can be engineered to meet project specific wind & snow load building codes.

07

TENT STRUCTURE

8. HEATING & COOLING

[X]

Our tents allow for additional features such as insulated canvas, heating stoves and air-conditioning systems where required.

07

TENT STRUCTURE

9. MILD STEEL FRAME

[X]

Choose between galvanized, powder-coated or stainless steel framing options.
